Recent Advances in Intrusion Detection: 12th International Symposium, RAID 2009, Saint-Malo, France, September 23-25, 2009, Proceedings (Lecture Notes in Computer Science)

On behalf of the Program Committee, it is our pleasure to present the proceedings of the 12th International Symposium on Recent Advances in Intrusion Detection systems (RAID 2009), which took place in Saint-Malo, France, during September 23–25. As in the past, the symposium brought together leading researchers and practitioners from academia, government, and industry to discuss intrusion detection research and practice. There were six main sessions presenting full research papers on anomaly and specification-based approaches, malware detection and prevention, network and host intrusion detection and prevention, intrusion detection for mobile devices, and high-performance intrusion detection. Furthermore, there was a poster session on emerging research areas and case studies. The RAID 2009 Program Committee received 59 full paper submissions from all over the world. All submissions were carefully reviewed by independent reviewers on the basis of space, topic, technical assessment, and overall balance. The final selection took place at the Program Committee meeting on May 21 in Oakland, California. In all, 17 papers were selected for presentation and publication in the conference proceedings. As a continued feature, the symposium accepted submissions for poster presentations which have been published as extended abstracts, reporting early-stage research, demonstration of applications, or case studies. Thirty posters were submitted for a numerical review by an independent, three-person sub-committee of the Program Committee based on novelty, description, and evaluation. The sub-committee recommended the acceptance of 16 of these posters for presentation and publication. The success of RAID 2009 depended on the joint effort of many people.

From reader reviews:

Sarah Davis:

Why don't make it to become your habit? Right now, try to prepare your time to do the important take action, like looking for your favorite book and reading a guide. Beside you can solve your problem; you can add your knowledge by the guide entitled Recent Advances in Intrusion Detection: 12th International Symposium, RAID 2009, Saint-Malo, France, September 23-25, 2009, Proceedings (Lecture Notes in Computer Science). Try to make book Recent Advances in Intrusion Detection: 12th International Symposium, RAID 2009, Saint-Malo, France, September 23-25, 2009, Proceedings (Lecture Notes in Computer Science) as your buddy. It means that it can to become your friend when you feel alone and beside regarding course make you smarter than previously. Yeah, it is very fortunated for you. The book makes you much more confidence because you can know every little thing by the book. So , we need to make new experience along with knowledge with this book.

Rose Hilton:

The book Recent Advances in Intrusion Detection: 12th International Symposium, RAID 2009, Saint-Malo, France, September 23-25, 2009, Proceedings (Lecture Notes in Computer Science) can give more knowledge and also the precise product information about everything you want. So just why must we leave the good thing like a book Recent Advances in Intrusion Detection: 12th International Symposium, RAID 2009, Saint-Malo, France, September 23-25, 2009, Proceedings (Lecture Notes in Computer Science)? Several of you have a different opinion about book. But one aim in which book can give many facts for us. It is absolutely appropriate. Right now, try to closer along with your book. Knowledge or data that you take for that, you are able to give for each other; you could share all of these. Book Recent Advances in Intrusion Detection: 12th International Symposium, RAID 2009, Saint-Malo, France, September 23-25, 2009, Proceedings (Lecture Notes in Computer Science) has simple shape but you know: it has great and massive function for you. You can search the enormous world by wide open and read a book. So it is very wonderful.

James Ritchey:

Nowadays reading books be than want or need but also get a life style. This reading routine give you lot of advantages. Advantages you got of course the knowledge the actual information inside the book this improve your knowledge and information. The knowledge you get based on what kind of book you read, if you want get more knowledge just go with knowledge books but if you want really feel happy read one with theme for entertaining for instance comic or novel. Typically the Recent Advances in Intrusion Detection: 12th International Symposium, RAID 2009, Saint-Malo, France, September 23-25, 2009, Proceedings (Lecture Notes in Computer Science) is kind of guide which is giving the reader unstable experience.

Barry Trusty:

Do you have something that you prefer such as book? The e-book lovers usually prefer to pick book like comic, small story and the biggest some may be novel. Now, why not trying Recent Advances in Intrusion Detection: 12th International Symposium, RAID 2009, Saint-Malo, France, September 23-25, 2009, Proceedings (Lecture Notes in Computer Science) that give your entertainment preference will be satisfied simply by reading this book. Reading habit all over the world can be said as the opportunity for people to know world considerably better then how they react in the direction of the world. It can't be mentioned constantly that reading habit only for the geeky man but for all of you who wants to be success person. So , for every you who want to start reading as your good habit, you may pick Recent Advances in Intrusion Detection: 12th International Symposium, RAID 2009, Saint-Malo, France, September 23-25, 2009, Proceedings (Lecture Notes in Computer Science) become your own starter.
