*Music in Our World* is the first text in music appreciation completely devoted to the study of music elements and to investing students with active listening skills.

The text examines each musical element from a number of angles - completely integrating world music throughout the discussion. The three chapters on Melody, for example, cite the work of Hildegard of Bingen, Ravi Shankar, and Giacomo Puccini.

This unique, elements-based approach engages students in actively listening to the broadest range of music available for music appreciation.
