Women of Vision: Their Psychology, Circumstances, and Success (Focus on Women)

"From the reviews:

Women of Vision blends biographical narrative with psychological perspectives on human development, resulting in a moving and passionate book that is suitable for both academic and nonacademic readers. It is a useful tool for teaching purposes or for simple, enjoyable, and informative reading."

--*Psychology of Women Quarterly*

...a fascinating look of preservation and perceptiveness that is differentiated from its predecessors in its range of disciplines and emphasis...This new 'life course' approach to understanding female leaders gives valuable insight into the lives of these eminent women, furnishing insights into how the social-economic-political milieu and the attitudes and values of the time played a significant role in the lives of these women but also in all our lives. *Women of Vision* will serve as a springboard for exploration of how the psychologies of individual human lives affect their life-course and as a galvanizing step for many more future women of vision and leadership....The accounts in the book should be of substantial significance for readers interested in gender issues. However, the book will appeal to an even wider audience. Persons hoping to move in new directions in their own lives (e.g., women looking wistfully at new academic and occupational paths after years in stereotypic niches) can surely also find inspiration in the various accounts." --**SirReadaLot.org**

We all know of women of great vision; women whose efforts and accomplishments have had a major impact on the arts, politics, women's rights, sports, or science. But often we may not understand how they became such powerful agents of change and what sorts of questions we should ask of their pasts to understand how the trajectories of their lives were formed.

In this extraordinary textbook, leading experts cast new light on the role of circumstance, accomplishments, and personality in the development of various twentieth-century women of vision. This is a brand new life-course approach to understanding female leaders and gives valuable insight into the lives of such eminent women as Rachel Carson, Evelyn Gentry Hooker, Georgia O'Keeffe, Eleanor Roosevelt, "Babe" Didrikson Zaharias, Ella Fitzgerald, Alice Paul, Lucille Ball, and many others. Study questions and exercises at the end of each chapter further enhance the text.

Women of Vision will serve as the springboard for exploration of how the psychologies of individual human lives affect their life-course and a galvanizing step for many more future women of vision and leadership.
