Learning About Animals Through the Alphabet: Teach letters and Phonics while learning about animals...A FULL Preschool or Kindergarten Curriculum Vicki L Scheiderer

Teach your child or class letters and phonics while also learning about animals. Children learn their letters and sounds best when they can associate them with something they enjoy. In this unit study, each letter is associated with an animal; which goes along with a snack, craft, song or fingerplay, reading list, worksheets and information sheets covering each animal. Your student will learn where the animal is located in the US, some of their habits, including their diet and sleeping habits, as well as an interesting fact about each animal. Have fun while learning/teaching your child or an entire classroom! You can either use the sheets directly out of the book for use with one child or make as many copies as you'd like to use with an entire classroom of children. All of the research and work has been done for you. All you have to do is open the book and go! You have enough material to cover an entire year's worth of teaching preschool or kindergarten.
