About this book...

Both new and experienced practitioners of Auriculotherapy have found this comprehensive manual to be one of the most clinically useful texts on ear acupuncture. This handbook combines the best work of Chinese and French systems of Auriculotherapy. Medical doctors, chiropractors, acupuncturists, physical therapists, reflexologists, dentists, naturopaths, massage therapists and nurses have applied the principles in this manual to successfully relieve chronic pain, suppress appetite and treat addictions.

The ear reflex points presented in this handbook are based upon extensive research conducted at the UCLA Pain Management Center. This text provides a standardized auricular nomenclature system for designating different anatomical zones of the ear. Each ear reflex point is represented by both a number and an auricular zone location. Treatment plans are listed for over 250 medical conditions.
