Writing a book is one of the most fulfilling things anyone can do. It's as important a milestone as getting married and having a child.

In fact, it's just like having a child. You'll think about it, wait for it to develop over many months, watch it grow, nurture it, give it everything you've got, and then send it on its way - out to the public to live a life of its own.

...and it will be part of your legacy,
something you'll leave to the world.

But just like a child, after you have created it you need to help it grow before setting it in the world.
