What's the buzz about the growing popularity of backyard beekeeping? Providing habitat for bees, pollinating your garden, and producing honey for your family are some of the compelling reasons for taking up this exciting hobby. But conventional beekeeping requires a significant investment and has a steep learning curve. The alternative? Consider beekeeping outside the box.

*The Thinking Beekeeper* is the definitive do-it-yourself guide to natural beekeeping in top bar hives. Based on the concept of understanding and working with bees' natural systems as opposed to trying to subvert them, the advantages of this approach include:

- Simplicity, sustainability, and cost-effectiveness
- Increased safety due to less heavy lifting and hive manipulation
- Chemical-free colonies and healthy hives

Top bar hives can be located anywhere bees have access to forage, and they make ideal urban hives. Emphasizing the intimate connection between our food systems, bees, and the well-being of the planet, *The Thinking Beekeeper* will appeal to the new breed of beekeeper who is less focused on maximizing honey yield, and more on ensuring the viability of the bee population now and in the coming years.

**Christy Hemenway** is the owner and founder of Gold Star Honeybees, a complete resource for all things related to beekeeping in top-bar hives. A passionate bee-vangelist and advocate for natural, chemical-free beekeeping, Christy is a highly sought-after speaker, helping audiences to understand the integral connection between bees, food, human health, and the future of the planet.
