## Differentiation for the Adolescent Learner: Accommodating Brain Development, Language, Literacy, and Special Needs

*Activate learning with practical techniques that put brain research and technology into practice!*

Translating brain research into practical classroom strategies, this valuable resource for adolescent-centered teaching provides keys to curriculum design, instruction, and assessment within the context of a developmentally appropriate, differentiated approach. This book focuses on learners' intellectual, social, and emotional needs and equips teachers with:

- A six-point differentiation model
- Tactics tailored to English Language Learners, gifted learners, and students with special needs
- Ways to capitalize on technology
- Brain-friendly instructional practices grounded in universal design for learning (UDL)
- Techniques to create environments aligned with adolescents' specific developmental needs
