Conservative Christians and Political Participation: A Reference Handbook (Political Participation in America) Glenn H. Utter, James L True

Conservative Christians and Political Participation examines the involvement and influence of the growing number of Conservative Christians in America. A historical overview of the interaction of religion and politics from colonial times to today sets the stage for a deeper exploration into the demographics of this group, the concerns they share, and the creative methods they employ to achieve their goals through protests, political activity, leadership, and group organization.

Case studies tackle highly emotional issues like same-sex marriage, decency in the mass media, school prayer, euthanasia, and American foreign policy toward Israel. The book also covers leaders such as Pat Buchanan and Ralph Reed, and discusses how they have been effective in their lobbying efforts through organizations like the Christian Action Network and the American Family Association.
