Unique among multicultural-minded introduction to ethics textbooks, **WORLD ETHICS** is first and foremost an introduction to ethical theory, not to applied ethics. And unique among introduction to ethical theory textbooks, **WORLD ETHICS** is firmly committed to exploring ethical theories of the World, not just those of the European philosophical mainstream. Consisting of sixty primary source readings from a variety of world philosophical traditions, this text will enable instructors, majors, and non-majors to engage the fundamental questions of ethics amidst a much more diverse array of standpoints than is typically featured in an introduction to ethics textbook. The coverage of the European tradition in this volume alone is richer than most introductory ethics anthologies. Inasmuch as **WORLD ETHICS** provides not only this traditional coverage, but also equally exceptional treatment of Asian, Feminist, and a number of other contemporary cultural theoretical perspectives, this title is bound to be of landmark and lasting value to the teaching of ethics.
