## **Second Nature: A Gardener's Education** Michael Pollan

In his articles and in best-selling books such as *The Botany of Desire*, Michael Pollan has established himself as one of our most important and beloved writers on modern man's place in the natural world. A new literary classic, *Second Nature* has become a manifesto not just for gardeners but for environmentalists everywhere. "As delicious a meditation on one man's relationships with the Earth as any you are likely to come upon" (*The New York Times Book Review*), *Second Nature* captures the rhythms of our everyday engagement with the outdoors in all its glory and exasperation. With chapters ranging from a reconsideration of the Great American Lawn, a dispatch from one man's war with a woodchuck, to an essay about the sexual politics of roses, Pollan has created a passionate and eloquent argument for reconceiving our relationship with nature.
