Understanding and Assessing Trauma in Children and Adolescents: Measures, Methods, and Youth in Context (Psychosocial Stress Series) Kathleen Nader

In this volume, Kathleen Nader has compiled an articulate and comprehensive guide to the complex process of assessment in youth and adolescent trauma. There are many issues that are important to evaluating children and adolescents, and it is increasingly clear that reliance on just one type of assessment does not provide the most accurate results. From history to recent advances, this book covers a wide range of methods and measures for assessing trauma, including case examples to illustrate the integration of these different facets. Altogether, the broad scope and inclusive depth of this work make it an essential addition to the field of trauma assessment.
