Looking Together at Student Work, Second Edition (On School Reform) Tina Blythe, David Allen, Barbara Schieffelin Powell

This expanded second edition provides teachers and administrators with strategies and resources for working together to examine and discuss student work, such as essays, projects, art work, math problems, and more. Providing real examples of how educators can do this, the authors describe three structured conversations, or protocols: the Collaborative Assessment Conference, the Tuning Protocol, and the Consultancy. The book also offers case studies from schools that developed their own protocols.
