## **The Autobiography of Benjamin Franklin (Dover Thrift Editions)** Benjamin Franklin

Blessed with enormous talents and the energy and ambition to go with them, Franklin was a statesman, author, inventor, printer, and scientist. He helped draft the Declaration of Independence and later was involved in negotiating the peace treaty with Britain that ended the Revolutionary War. He also invented bifocals, a stove that is still manufactured, a water-harmonica, and the lightning rod.

Franklin's extraordinary range of interests and accomplishments are brilliantly recorded in his *Autobiography*, considered one of the classics of the genre. Covering his life up to his prewar stay in London as representative of the Pennsylvania Assembly, this charming self-portrait recalls Franklin's boyhood, his determination to achieve high moral standards, his work as a printer, experiments with electricity, political career, experiences during the French and Indian War, and more. Related in an honest, open, unaffected style, this highly readable account offers a wonderfully intimate glimpse of the Founding Father sometimes called "the wisest American."
