In this unique work, Alexander T Paulos takes you on a journey into the heart of the controversy surrounding the predominant location of the Book of Mormon. This book makes a strong case for North America, rather than Mesoamerica (which is where most Latter-day Saint scholars believe it took place), as the primary setting of the Book of Mormon. This book shows you how North America has possessed the most Semitic-looking indigenous peoples from the tribe of Joseph of Egypt, which makes it the most likely candidate for a primary setting of the Book of Mormon. This book displays numerous photographs of ancient effigies, artifacts, and murals to back up its claim about North America. It also provides DNA evidence to show how indigenous North Americans are related to an ancient Egyptian vizier who possessed Semitic ancestry and worshiped a non-Egyptian god named "Yah." Could this man be Joseph of Egypt?
