SemProM: Foundations of Semantic Product Memories for the Internet of Things (Cognitive Technologies)

SemProM: Foundations of Semantic Product Memories for the Internet of Things (Cognitive Technologies)

The development of low-cost, compact digital storage, sensors and radio modules allows us to embed digital memories into products to record key events. Such computationally enhanced products can perceive and control their environment, analyze their observations, and communicate with other smart objects and human users. Digital product memories (DPMs) will play a key role in the upcoming fourth industrial revolution based on cyber-physical production systems, resulting in improvements in traceability and quality assurance, more efficient and flexible production, logistics, customization, and recycling, and better information for the consumer.

SemProM was a major industrial and academic research project that examined all aspects of the design and implementation of semantic product memories, and this book is a comprehensive assessment of the results achieved. The introductory chapters explain the fundamental ideas and the organization of the related project, while the remaining parts explain how to build, model and process DPMs, multimodal interaction using them, and selected applications.

This work is inherently multidisciplinary and the related ideas, technologies, and implementations draw on results in fields such as semantic technologies, machine-to-machine communication, intelligent sensor networks, instrumented environments, embedded systems, smart objects, RFID technology, security, and privacy. The contributing authors are leading scientists and engineers, representing key academic teams and companies.

The book explains successful deployment in applications such as manufacturing, green logistics, retail, healthcare, and food distribution, and it will be of value to both researchers and practitioners.

From reader reviews:

Douglas Barlow:

The event that you get from SemProM: Foundations of Semantic Product Memories for the Internet of Things (Cognitive Technologies) may be the more deep you digging the information that hide into the words the more you get serious about reading it. It does not mean that this book is hard to comprehend but SemProM: Foundations of Semantic Product Memories for the Internet of Things (Cognitive Technologies) giving you joy feeling of reading. The article author conveys their point in specific way that can be understood by simply anyone who read that because the author of this book is well-known enough. This particular book also makes your vocabulary increase well. Therefore it is easy to understand then can go with you, both in printed or e-book style are available. We highly recommend you for having this SemProM: Foundations of Semantic Product Memories for the Internet of Things (Cognitive Technologies) instantly.

Molly Marquis:

Do you have something that you enjoy such as book? The publication lovers usually prefer to pick book like comic, brief story and the biggest one is novel. Now, why not striving SemProM: Foundations of Semantic Product Memories for the Internet of Things (Cognitive Technologies) that give your satisfaction preference will be satisfied by reading this book. Reading behavior all over the world can be said as the method for people to know world far better then how they react toward the world. It can't be claimed constantly that reading habit only for the geeky particular person but for all of you who wants to possibly be success person. So , for all of you who want to start studying as your good habit, you are able to pick SemProM: Foundations of Semantic Product Memories for the Internet of Things (Cognitive Technologies) become your own personal starter.

Larry Dolin:

Reading a book to get new life style in this year; every people loves to learn a book. When you go through a book you can get a large amount of benefit. When you read textbooks, you can improve your knowledge, due to the fact book has a lot of information into it. The information that you will get depend on what types of book that you have read. In order to get information about your examine, you can read education books, but if you act like you want to entertain yourself look for a fiction books, these kinds of us novel, comics, and soon. The SemProM: Foundations of Semantic Product Memories for the Internet of Things (Cognitive Technologies) offer you a new experience in studying a book.

Erik Garcia:

A lot of e-book has printed but it is unique. You can get it by world wide web on social media. You can choose the most beneficial book for you, science, comic, novel, or whatever through searching from it. It is known as of book SemProM: Foundations of Semantic Product Memories for the Internet of Things (Cognitive Technologies). Contain your knowledge by it. Without leaving behind the printed book, it might

add your knowledge and make anyone happier to read. It is most critical that, you must aware about reserve. It can bring you from one location to other place.
